What is the

employer contribution?

The new BVG job ticket is available at an attractive price that includes the BVG's own discount and the employer contribution.

- For every employer contribution of **at least 10 euros a month** per employee, a public transport discount of **4 euros a month** per employee is added
- If the employer contribution increases to **at least 15 euros**, the public transport discount doubles to **8 euros**

The public transport discount is deducted directly from the ticket price. The amount of the employer contribution is decided internally and applied to your salary. If they want, of course, companies can pay for the job ticket in full.

Example calculation with monthly payment and an employer contribution of at least 10 euros:

| | |
|-----------|-----------------------|
| € 63.42 | AB e-ticket |
| - € 10.00 | Employer contribution |
| - € 4.00 | BVG discount |
